Gentlemen:

We wish to advise you that the equipment to be reworked under the above contract number has been received, and that the work covered by the above contract will be held in abeyance until payment on contract no. [REDACTED] covering the original construction of the unit in question has been received.

Contract No. [REDACTED] was completed in November 1963, over one year ago, and since it was a cost plus contract, it had been audited and all charges reconciled in May 1964. So far, in November of this year, we have still not received payment for it.

Therefore, if you expedite the amount due us, we can start work on the new contract and get the unit converted as per specifications.

Sincerely,

[REDACTED]

EPT:JJ
